

## INTERNET SEMINAR

Organised by Co-organizer, African and Arab Regions - DPR of Korea Friendship  
Organizations

**“Peerless Great Man: KIM IL SUNG”**

**Date: 7<sup>th</sup> June 2022**

**A presentation by Newton Balenzi,  
Head of Administration, Uganda National Executive Committee, the Pan African  
Movement**

Dear, Fellow participants

It is so pleased for supporters of the Korean Revolution from Uganda to participate in this Internet Seminar which will be held this significant year when the Korean people and the world progressive people celebrated, with splendour, the 110<sup>th</sup> anniversary of the birth of H.E. **Kim Il Sung** and the 80<sup>th</sup> anniversary of the birth of H.E. **Kim Jong Il**.

I would like to take this opportunity to present my compliments to the organizing body and Nigerian-DPR of Korea Friendship association.

And allow me to extend my warm greetings to all participants from all over the African continent and Arab Region.

H.E. **Kim Il Sung** is the peerless great man who made a tremendous contribution to the Popular Masses' Cause of Independence as the great philosopher of the world, illuminating the road for the progressive people in the Global Independence.

H.E. **Kim Il Sung**, founding father of the DPR of Korea authored the Juche idea during his early struggle against Japanese colonial rule.

The Juche idea authored by H.E. **Kim Il Sung** has been comprehensively systemized, further developed and enriched with profound principles and propositions by H.E. **Kim Jong Il** and H.E. **Kim Jong Un**.

In this discussion, allow me to note about the immortal ideological and theoretical exploits performed by H.E. **Kim Il Sung** on the road for realizing the cause of global independence.

### What Is the Independent World?

An independent world is the immediate fighting goal of humanity's cause of independence and the foremost important fighting task facing the world people at present.

H.E. **Kim Jong Un** said.

“An independent world is one free from domination and subordination, aggression and intervention, where sovereignty and equality for all countries and nations are guaranteed.”

An independent world is one free from all kinds of domination and subordination, aggression and intervention, where sovereignty and equality for all countries and nations are guaranteed. Domination and subordination, aggression and intervention over other countries are the true character of the imperialists. The history of imperialism is the history of aggression and war, and war and domination are constant companion of imperialism.

All policies of the imperialists are made and carried out on the basis of their aggressive and predatory character. Today the imperialists' maneuvers to dominate the world are becoming more vicious.

Therefore, unless domination and subordination, aggression and intervention are completely eliminated, the critical international situation that tramples upon the sovereignty of countries and nations will constantly last, and an independent international community can never be conceivable.

Since the aggression and domination over other countries are the true character of the imperialists, the source that causes domination and subordination can be cleared and the independent world can be built when we fight till the imperialism is completely eliminated.

Next, an independent world is one where sovereignty and equality for all countries and nations are guaranteed.

There are big and small countries, developed and underdeveloped countries in the world but there cannot be high and low countries, countries to dominate and to be dominated.

All countries and nations are completely independent and equal.

To exercise their sovereignty in the international relations is a sacred right for all countries and nations.

All countries and nations should develop the relations of friendship and co-operation on the principle of equality and mutual respect and should neither infringe upon others' independence nor force their thought and demand upon them.

All countries should establish equal and independent relationship each other, irrespective of the size of the country or standard of development, and should neither allow arbitrariness and tyranny of a few special countries nor submit to them.

Only then, can all countries and nations completely realize their sovereignty and build a new independent world.

#### Theoretical Foundation for Global Independence.

**Kimilsungism-Kimjongilism** illuminates the theoretical foundation for global independence in a scientific way.

One of the important contents in the theoretical foundation for global independence clarified by **Kimilsungism-Kimjongilism** is that country and nation is a main unit of shaping destiny of its people.

Country and nation is a social collective, a main unit of shaping destiny that strikes its root deep in the people's life and unite them into the most solid community of their destiny through the whole process of its origin and development.

In order to shape their destiny successfully, the people should oppose domination and subordination, intervention and pressure of outside forces and establish international relations based on independence and accelerate democratization of the international community, with country and nation as a unit.

Another of the important contents in the theoretical foundation for global independence clarified by **Kimilsungism-Kimjongilism** is that all countries and nations are equal members of the international community.

All countries and nations have independence irrespective of size of territory and population, history and tradition, political system and development level of economic and cultural system. They are all equal members of the international community that have independent and equal rights.

The independent world is the one where all countries and nations exercise full sovereignty in the international arena based on equality and mutual respect as equal members of the international community.

The other of the important contents in the theoretical foundation for global independence clarified by **Kimilsungism-Kimjongilism** is that independence is the basis of fair international relations.

Fair international relations can be established, maintained and developed only when all countries and nations hold independence.

Those who aspire after independence keenly experienced through the foreign relations practice that the international relations based on independence can only guarantee their independent development, and to its end, they have made persistent efforts to establish the principles and rules of international law.

#### All Anti-imperialist Independent Forces Are Motive force in the Struggle for Global Independence.

**Kimilsungism-Kimjongilism** expounds that all the anti-imperialist, independent forces fighting for independence are the motive force in the struggle for the global independence.

H.E. **Kim Jong Il** said

“The motive force of the struggle for independence in each country is the people of that country, whereas the motive force of the struggle to oppose imperialism and make the world independent consists of the socialist countries, the international communist movement, the national-liberation movement in colonies, the non-aligned movement, the world peace movement and other anti-imperialist, independent forces.”

Making the whole world independent is the cause to build the independent world free from all sorts of domination and subordination, interference and pressure and joined in the cause are all the anti-imperialist, independent forces which are opposed to imperialism and domonationism and defend the independence.

All countries, nations and the peoples struggling in defence of the independence have differences in ideas, systems, political views, religious believe and races. But these differences are not the obstacles in the joint struggle against the imperialist dominationist forces. All countries and nations defending the independence can be united as one independent force

as they have common object and interests aspiring after the independence against imperialism, dominationism and thus become the powerful motive force in the struggle for the global independence.

The motive force in the struggling for the global independence is all the anti-imperialist, independent forces including the socialist movement, anti-imperialist national liberation movement, the non-aligned movement and the movement in defence of the world peace.

If all the anti-imperialist, independent forces wage the joint struggle against imperialism and dominationism on the worldwide scale in close unity, the cause for global independence will be accomplished without fail.

The cause of global independence will advance continuously along with the Juche idea, overcoming all the trials and challenges of history.

Indeed, the great ideological and theoretical exploits performed by H.E. **Kim Il Sung** for the cause of global independence will be forever shine along with the Juche idea which is the forever banner for the Independent Cause of humankind.

Having withstood the wrath of the western domination history, Africa now is working towards a new vision. Juche idea is an appropriate philosophy to be applied alongside Africa's Pan Africanism to examine in detail the inevitable goal of transforming society.

**Kimilsungism-Kimjongilism**, Juche idea forever remains immortal and its guiding principles are what we as the new generation of African scholars strive to uphold and carry forward for a better future.

Indeed, the noble image of H.E. **Kim Il Sung** as the peerless great man will forever remind in the hearts of the world progressive people.

In conclusion, allow me to note that the Korean people will achieve their final victory in building a powerful nation under the wise leadership of H.E. **Kim Jong Un** who has thoroughly carried forward and further developed the idea of H.E. **Kim Il Sung** and H.E. **Kim Jong Il**.

Thank you.

Yours,

**Newton Balenzi**

Head of Administration, Uganda National Executive Committee, Pan African Movement
