Spokesman of DPRK FM Institute for American Studies

on Anti-DPRK Sanctions and Pressure

Pyongyang, September 28 (KCNA) -- A spokesman for the Institute for American Studies of the DPRK Foreign Ministry gave the following answer to a question put by KCNA on Thursday as regards the recent controversy over the absurd claims that sanctions and pressure upon the DPRK are a peaceful and diplomatic solution:

The U.S. which is desperately resorting to unprecedented and heinous sanctions to stifle the DPRK and a few countries following it have lately come up with the ridiculous nonsense that tightening sanctions and pressure is the way for the so-called "peaceful" and "diplomatic" solution to issue of the Korean peninsula.

A few days ago, high-ranking officials of the U.S. administration including the U.S. ambassador to the United Nations, Nikki Haley said all options including military option are available but they are giving priority to the diplomatic solution, and their remarks are misleading public opinion as if the sanctions against the DPRK are a "peaceful" and "diplomatic" means.

Some European countries and a few neighboring countries with no principle are tuning their voice to the claim of U.S. and labeling the sanctions and pressure as a diplomatic means for the solution of the issue of the Korean peninsula. They are trying to justify their despicable acts of taking part in imposing sanctions and pressure on the DPRK as if it was meant for the peaceful solution.

Political and economic sanctions and pressure to completely obliterate the sovereignty and the rights to existence and development of a sovereign state are hardly any different from the act of military aggression, and it cannot be justified as peaceful and diplomatic acts in any case.

In order to counter the inveterate hostile policy and nuclear threat of U.S., the DPRK gained access to everything it needed including nuclear weapons. It would be a huge mistake to think the DPRK would do nothing about the heinous sanctions and

pressure against it, let alone the threats of aggressive war from the U.S. and other hostile forces.

The primary mission of our invincible self-defensive military power with the nuclear force that we have developed at a huge cost at its core is to frustrate the military invasion and sanctions and pressure of the U.S. and protect the sovereignty and rights to existence and development of the country.

We will continue to march forward along the road we have chosen without the slightest deviation and we will respond to anyone who tries to stop us with tougher counteractions. -0-

DPRK Foreign Ministry Spokesman on Case of Otto Warmbier

Pyongyang, September 28 (KCNA) -- A spokesman for the DPRK Foreign Ministry issued the following press statement on Thursday:

Lately, Trump and his clique, for their anti-DPRK propaganda, are again exploiting the death of Otto Warmbier, an American college student who had been under reform through labor for the criminal act he committed against the DPRK and died after returning to the U.S.

Trump has let out a stream of invective that Warmbier "suffered unbelievable torture" and that "north Korea abducted and tortured him and intentionally caused his death", while the U.S. State Department announced that they were ready to re-list the DPRK as a "state sponsor of terrorism" over the issue of Warmbier.

The fact that the U.S. is employing even a dead person for the conspiracy campaign to fuel the international atmosphere of putting pressure on the DPRK shows how vile and inveterate the hostility of the U.S. policy-makers towards the DPRK is.

To make it clear once again, Warmbier was a criminal who was sentenced to reform through labor on March 16, 2016 by the law of the DPRK for the hostile act he committed against the DPRK according to the mission he was given by an anti-DPRK conspiracy organization in the U.S. However, we provided him with sincere medical care on humanitarian grounds in consideration of his failing health until he returned to the U.S.

The fact that he was never subjected to any form of "torture" was acknowledged without any doubt even by the American doctors who visited and carried out

medical examination on Warmbier in the DPRK last June and by those who examined him after his return to the U.S.

If Trump and the U.S. are truly sorry for the loss of Warmbier, they should repent and apologize for their crime of luring and pushing a student who should be concentrating on his studies into committing criminal acts against the DPRK.

The reason that the present U.S. administration is viciously condemning the DPRK with the death of Warmbier again is not because of their concern for the "security of the U.S. citizens" as they always advocate. This is only a lame and sordid product of anti-DPRK conspiracy trumped up by Trump to save his "face" which has landed hard and flat on the muddy ground by the heavy blow from the DPRK's hard-line stance after carelessly wagging his tongue.

What cannot be overlooked is that the riff-raff in the U.S. dared to cast slurs on the dignity of the supreme leadership of the DPRK.

The fact that the old lunatic Trump and his riff-raff slandered the sacred dignity of our supreme leadership, using bogus data full of falsehood and fabrications, only serves to redouble the surging hatred of our army and people towards the U.S. and their will to retaliate thousand-fold.

The recent developments teach the lesson again that we should never render leniency or any consideration on humanitarian grounds to the U.S., the DPRK's first enemy.

Trump should ponder over the devastating consequences to be entailed by the anti-DPRK conspiracy and be fully aware that he and his clique shall be held totally responsible for all the undesirable turn of events to be caused by the careless and imprudent remarks that he gabbles on wagging his tongue in and out of his big mouth.

We will closely monitor the conduct of the U.S. -0-

Workers Will Deal Sledge-Hammer Blow at War Maniacs: C.C., GFTUK

The Central Committee of the General Federation of Trade Unions of Korea (GFTUK) in a statement on Sept. 26 said the historic statement made by respected Supreme Leader **Kim Jong Un** to deal a stern sledge-hammer blow at the U.S. imperialist aggressors is a declaration of Juche Korea which clearly represented the

strong spirit and retaliatory will of all the people including the workers.

The U.S. war maniacs like Trump made the open declaration of war, much upset and seized by extreme frustration in the face of the dazzling achievements made by the DPRK in its efforts to reach the final destination in rounding off the state nuclear force, but the declaration is nothing but a last ditch effort of those facing the ruin, the statement said, and went on:

For the sake of independent life of the workers all over the world, such unpopular society like the U.S. which is getting corpulent at the cost of blood shed by the billions of peoples has to disappear from the earth and such popular country as the DPRK has to prosper for eternity.

The workers of the DPRK are full of enthusiasm to supply more Korean-style strategic weapons and ultra-modern war hardware to fronts at a faster speed which are waiting for the order for the final showdown with the U.S. and the order for the grand advance for Korea's reunification so that Trump and his group might not bluff any more.

We will wage increased production drive, creation drive and general charge drive through the great surge of self-reliance to settle accounts with the U.S. imperialists, and demonstrate the stamina of the Korean working class once again to the war maniacs hell bent on anti-DPRK sanctions and pressure.

We, the **Kim Il Sung-Kim Jong Il** working class, will turn out in the do-or-die battle with the U.S. in hearty response to the call of the respected Supreme Leader and force with the dignity and honor of Juche Korea the old deranged man to pay a dear price and bring about the final victory without fail. -0-

Agricultural Workers Will Mete out Merciless Punishment to Provocateurs: C.C., UAWK

The Central Committee of the Union of Agricultural Workers of Korea (UAWK) Tuesday in a statement fully supported the historic statement issued by respected Supreme Leader **Kim Jong Un** to make the man holding the prerogative of supreme command of the U.S. pay dearly for his rude nonsense calling for totally destroying the DPRK.

Noting that the reckless remarks of the old lunatic Trump to "totally destroy" the

DPRK and the whole Korean nation are the thrice-cursed provocative crime, the statement went on:

Trump is a worm less than animals raised by farmers and a poisonous mushroom less than weed in paddy and non-paddy fields.

All the cooperative fields from Taehongdan Plain in the northern area to Yonbaek Plain adjacent to the demarcation line are seething with surging resentment.

The Yankees are going hysterical, frightened by the thunder of Juche bomb declaring the last end of the U.S. imperialism. Our agricultural workers regard them as puppets only in paddy and non-paddy fields.

The sworn enemies should clearly understand the stamina and disposition of our farmers who have grown stronger in the tempest of the Juche revolution under the leadership of the great Party.

We all the members of the UAWK and agricultural workers will mete out the most merciless punishment to the disgusting provokers just as the peasant heroes in the former generation who displayed bravery with arms and defeated the U.S. imperialists by ensuring wartime food production even under the enemies' bombing during the Fatherland Liberation War. -0-
