Kim Jong Un Inspects KPA Unit 1524

The respected Supreme Leader **Kim Jong Un** inspected Unit 1524 of the Korean People's Army (KPA).

After receiving a salute, he went round the education room, barracks, wash-cum-bath room, bean warehouse, greenhouse and other parts of the unit, guided by its commanding officers, to take warm care of the living of soldiers as their own parents would do.

At the education room, he acquainted himself in detail with the education of soldiers of the unit and stressed the need to intensify the political and ideological education and the education of faith in conformity with the specific character of the duty of the unit defending the outpost line of the socialist country and thus reliably defend the post and carry on service with the steadfast class stand.

He learned about the soybean farming by the unit at the bean warehouse and told officers to increase the per-hectare soybean yield by positively introducing successes and experience of advanced units.

He also said it is necessary to pay deep attention to providing good bean processing equipment for the combat units in remote areas like the unit so that the servicepersons can eat various bean dishes.

Going round the greenhouse, he stressed the need for the unit to plant and introduce around the barracks the high yielding crops and vegetables of good species cultivated by Farm 1116 of KPA Unit 810 so that it may benefit from them.

Being satisfied with the fact that the unit settled the cooking fuel issue with methane gas and has improved the servicepersons' diet with a good supply foundation, he repeatedly underscored the need to push forward with the work for laying living foundations so that the soldiers can devote themselves to the military service without any inconvenience.

Expressing the expectation and belief that the servicepersons of the unit would creditably discharge their mission and role as frontline soldiers defending the gate to the socialist country with red arms of revolution in their hands, he had a photo session with them.

Accompanying him were Hwang Pyong So, Han Kwang Sang and Jo Yong Won, senior officials of the Central Committee of the Workers' Party of Korea, and Kim Chang Son, department director of the State Affairs Commission.

Kim Jong Un Visits Sindo County, North Phyongan Province

The respected Supreme Leader **Kim Jong Un** gave field guidance to Sindo County, North Phyongan Province.

He inspected Field 14 of Reed Branch Farm 1 of the Sindo County Combined Reed Farm visited by President **Kim Il Sung** and leader **Kim Jong Il**.

He said that if the production of chemical fiber based on reed is to be reenergized, it is necessary to spruce up Sindo County as befitting a large-scale reed production base, put the reed cultivation on a scientific and modern basis so as to increase the per-hectare yield of it and settle the reed transportation issue in order to supply enough fiber materials to factories.

Noting that to turn the county into a reliable Juche-based chemical fiber materials base and increase the reed production is an important work for further strengthening the independence of the country's chemical industry, he said that he would positively help it and called for raising good reeds to keep its production going at the rate of the peak year and continuing to reap the rich harvest in the future.

He set forth detailed tasks and ways for bringing about a fresh turn in the reed cultivation.

He said that he would send high-powered tractors and other vehicles to the county, and assigned the relevant sector to tasks to preferentially provide the county with fuel oil, tyres and accessories for vehicles, learn about the conditions of generating and pumping equipment and tugs and lighters and take steps to maintain them and work out to provide new ones and help it in a responsible manner.

Then he toured the mechanized workteam of Reed Branch Farm 1.

He called for using farm machines and implements with care and taking good care of them in a responsible way and repairing and maintaining them in time and making effective use of them by enhancing the responsibility and role of the users and thus positively mechanizing all the farming processes.

After learning in detail about the conditions of Sindo County as a whole, the Supreme Leader advanced highly important tasks facing the county.

Saying that it is important for the remote island to lay a reliable supply service foundation for it, he underlined the need to increase the grain production and reenergize the stockbreeding and fishing bases so as to turn the county into the one with mighty means of living that can produce and supply all things necessary for its economic life independently.

Stressing the need to build up the county people's hospital on a modern basis like a big one in a city in order to cure patients by itself, he said that the hospital should be provided with complete sets of medical equipment to perform most operations.

It is also needed to spruce up primary and middle schools in the county and remarkably improve the educational environment and conditions so that the inhabitants in the island can lead a highly civilized life like those in a city, he said, making sure that the powerful building force of the People's Army is mobilized to rebuild the people's hospital and schools in the county into model and standard

units in the public health and educational fields. And he on the spot took measures to provide the necessary materials.

Working heart and soul to provide the inhabitants in the island county with more convenient and civilized living conditions, he promised to send buses and other vehicles in consideration of their traffic conditions.

Accompanying him were Hwang Pyong So, Han Kwang Sang, Kim Song Nam, Jo Yong Won, senior officials of the Central Committee of the Workers' Party of Korea, and Kim Chang Son, department director of the State Affairs Commission.

Kim Jong Un Inspects Sinuiju Cosmetics Factory

The respected Supreme Leader **Kim Jong Un** together with his wife Ri Sol Ju gave field guidance to the Sinuiju Cosmetics Factory.

He went round a room dedicated to education in the revolutionary history and a room dedicated to the history of the factory.

Seeing with deep emotion the significant photos of President **Kim Il Sung** and leader **Kim Jong Il** on show at the room dedicated to the revolutionary history, he said that the factory traveled the path of its praiseworthy development under the wise leadership and particular care of **Kim Il Sung** who brought about the beginning of the cosmetics industry of the country and of **Kim Jong Il** who chose the site of the factory at the foot of a cozy mountain in the picturesque southern Sinuiju area with clean water and laid a firm foundation for the future development.

Going round the soap, basic cosmetics and cosmetics workshops, the sample room, Pomhyanggi-trademarked cosmetics exhibition and other places of the factory for a long time, he learned in detail about the cosmetics production and the modernization of the factory.

He praised the factory for updating the production processes of cosmetics for washing and hair and other various cosmetics which have been put on an automated, germ-free and dust-free basis in a short span of time.

He said it is amazing that the factory has created the capacity of the development and mass-production of scores of kinds of new goods including good quality cosmetics for hair and remedy.

He said with great satisfaction that it has really done a lot of work without being known to others during the period, extraordinary is the long-standing unit associated with the leadership exploits as he has heard and he admires at the assiduous spirit and diligent working manner of the officials and workers of the factory.

He noted that the factory should not rest content with what it has already achieved but continue to make a leap forward to attain a higher goal and that it should never praise itself as Pomhyanggi-trademarked cosmetics are very popular among the people and in great demand. He underlined the need for the factory to push forward with the research for improving the quality of the products and increasing varieties in conformity with the characteristics of the liking, age and constitution of the users while analyzing Unhasu-trademarked cosmetics and other cosmetics of the country in contradistinction to world-famous cosmetics.

Noting that the cosmetics container also plays an important role in enhancing the value of cosmetics, he gave instructions to produce containers of various shapes, sizes and colors so that their specific characters are seen well and they are suited to conveniences of the users, and to pack them in diversified forms so as to present cosmetics as gifts or souvenirs.

He set forth detailed tasks and ways for producing cosmetics including the issue of developing and producing lots of cosmetics of various kinds.

Looking round the sample room and the Pomhyanggi-trademarked cosmetics exhibition, he said with pleasure that they have been arranged in a peculiar way.

He instructed officials to build a fashionable shop for Pomhyanggi-trademarked cosmetics produced by the factory in Pyongyang City.

He expressed the expectation and belief that the officials and employees of the factory would take the lead in developing the cosmetics industry and make a true contribution to improving the people's standard of living, bearing in mind the high consciousness that they serve the people, and had a photo session with them.

Accompanying him were An Jong Su, Hwang Pyong So, Han Kwang Sang, Kim Song Nam, Jo Yong Won, O Il Jong and Hwang Yong Chol, senior officials of the Central Committee of the Workers' Party of Korea.

Kim Jong Un Inspects Sinuiju Chemical Fibre Mill

The respected Supreme Leader **Kim Jong Un** gave field guidance to the Sinuiju Chemical Fibre Mill.

He went round the room dedicated to education in the revolutionary history and learned about the production at the paper manufacturing workshop.

Noting that one of those entangled in the education of the rising generation, a top-priority work for the Party, is the fact that the demand for paper has not been fully met, he stressed the need to upgrade the paper industry in reliance on the domestic resources and raw materials at any cost and thus sufficiently supply the paper necessary for the production of textbooks, reference books and notebooks for schoolers.

Examining the paper produced on a trial basis with reed as raw material, he said that will serve the purpose, and stressing the need to further deepen the research for improving the quality and productivity of paper.

He expressed satisfaction over the fact that the possibility of sufficient supply of raw materials was created with the increase of reed production on Pidan Island

and the mill's project for expanding the capacity of reed-based paper production is going at the last stage to open the prospect for settling the paper problem.

While acquainting himself with the upgrade of the factory, he pointed out deviations and gave instructions for developing the mill.

He seriously reproved officials for failing to take pains to finish as early as possible the upgrading of the paper manufacturing process prioritized and looked for by the Party and to fulfill their responsibility and role.

He instructed the officials to urgently finish the paper production process upgrading, concentrate efforts on sprucing up the production buildings and accelerate the dredging project of wharf for reed discharge.

He set forth the tasks and ways for successfully upgrading the mill as befitting a unit associated with the leadership exploits of President **Kim Il Sung** and leader **Kim Jong Il** and massively producing paper with reed as basic raw material.

Accompanying him were An Jong Su, Hwang Pyong So, Han Kwang Sang, Kim Song Nam, Jo Yong Won, O Il Jong and Hwang Yong Chol, senior officials of the Central Committee of the Workers' Party of Korea.
