## **Pomminryon Calls for Nation-wide Struggle for Implementing Panmunjom Declaration**

Pyongyang, June 2 (KCNA) -- The north, south and overseas headquarters of the Pan-national Alliance for Korea's Reunification (Pomminryon) released a joint resolution on Saturday.

Stressing that the "Panmunjom Declaration for Peace, Prosperity and Reunification of the Korean Peninsula" adopted at Panmunjom on April 27, 2018 is a historic landmark for ushering in a new era of independent reunification by carrying forward the July 4 joint statement, the June 15 joint declaration and the October 4 declaration, the resolution said:

The north, south and overseas headquarters of Pomminryon pledges as follows, hailing together with 80 million Koreans the historic Panmunjom declaration and reflecting the firm will to implement as early as possible this valuable agreement common to the nation;

1. We will positively put in practice the Panmunjom declaration, a new landmark for independent reunification.

Pomminryon will strictly reject the outsiders' interference and arbitrary practices threatening the destiny of all Koreans, open up a new era of independent

reunification only in the principle and spirit of By Our Nation Itself, and actively work to establish a mechanism for permanent and durable peace of the Korean peninsula.

2. We will arrange a joint national event involving all circles of people without fail to lay a foundation for holding a great pan-national gathering for reunification.

Pomminryon will make the joint national events specified in the Panmunjom Declaration successful ones, and thus rev up the atmosphere for north-south reconciliation and cooperation and demonstrate the stronger will to achieve the great national unity and independent reunification.

Pomminryon will provide a foundation for the successful great pan-national gathering for reunification in the future by successfully hosting joint national events.

3. We will strive to immediately resolve the humanitarian issue caused by national division and make non-governmental exchange and cooperation brisk.

Pomminryon will make efforts to urgently settle the humanitarian matters caused by the national division and confrontation and vitalize non-governmental exchange and cooperation.

4. We will work hard to get all legal and institutional mechanisms disturbing national reconciliation and unity abrogated and to have the south headquarters of Pomminryon legitimized.

Pomminryon will strive to get the "Security Law", the biggest obstacle to national reconciliation and unity and development of the north-south relations, abrogated as early as possible.

5. Pomminryon will positively work to get the U.S. hostile policy toward the DPRK withdrawn and a peace treaty concluded.

The north, south and overseas headquarters of Pomminryon will more vigorously stage a nation-wide campaign for implementing the historic Panmunjom Declaration by pooling efforts of all Koreans.

## **Press Release of DPRK Permanent Mission in Geneva**

Pyongyang, June 2 (KCNA) -- The DPRK permanent mission to the UN Office and other international organizations in Geneva on May 30 issued a press release with regard to the recent revelation of the truth about the enticed group abduction of DPRK women citizens by the south Korean authorities.

Noting that the "case of group defection of north Korean restaurant workers" in April 2016 was proven to be conspiratorial farce cooked up by the Park Geun Hye regime of south Korea, through interviews of the victims and the criminal involved in the case, the press release said:

Consistent is our stand to continue our effort ceaselessly until the repatriation of our citizens abducted in group as well another DPRK woman citizen Kim Ryon Hui who had been tricked to south Korea and now appeals for years to return back to her home in the north is realized, and to take appropriate measure whenever necessary.

The south Korean authorities should admit the unheard-of atrocity of the former Park Geun Hye regime, severely punish those involved in the case, send our women citizens to their families without delay and thus show the will to improve the inter-Korean relations.

What is disappointing concerning this case is the inaction with silence by UN agencies including the OHCHR.

The OHCHR should abandon its prejudiced and partial attitude of paying attention to unconfirmed and absurd accusations spread by hostile forces against the DPRK and discharge its due mandate and responsibility by taking appropriate action aimed at an early return of the DPRK victims of abduction to their beloved families as unanimously desired by the international community.
