## Respected Comrade Kim Jong Un Makes Closing Address at Sixth Conference of Cell Secretaries of Workers' Party of Korea

Pyongyang, April 9 (KCNA)-- The respected Comrade **Kim Jong Un** made a closing address at the Sixth Conference of Cell Secretaries of the Workers' Party of Korea (WPK).

The following is the full text of the closing address:

Comrade cell secretaries,

The Sixth Conference of Cell Secretaries of the Workers' Party of Korea, which has been held to bring about a radical turn in strengthening the cells, the cornerstones and bases in consolidating and uniting the entire Party, is to wind up its work after achieving its objectives amidst the soaring political enthusiasm of all the participants.

The conference made an in-depth review and analysis of the work of Party cells in the aspects of their merits and demerits and advanced major tasks they should carry out at present and the practical measures for improving the roles of their secretaries.

The conference reaffirmed the significance and importance of strengthening Party cells in making the ideological and volitional unity of the entire Party rock-solid and powerfully propelling socialist construction. Expressed at the conference were firm determinations to carry out our immediate struggle tasks by enhancing the fighting efficiency of Party cells.

This conference will be etched in the annals of building our Juche-oriented Party as a meaningful conference that further enriched its original ideology of building grass-roots organizations and set forth clear-cut action programmes for all of its cell secretaries.

Comrade cell secretaries,

Turning all Party cells into healthy and viable ones which are closely knitted in bonds of human feelings—this is the main idea of this conference.

Those that are not knitted in bonds of human feelings cannot become loyal cells.

Turning all Party cells into collectives closely knitted in bonds of human feelings is a prerequisite for strengthening the entire Party and an urgent problem that should be solved without fail at present.

To this end, the Party Central Committee has advanced at this conference ten major tasks that face Party cells and twelve major traits which their secretaries should possess.

You, Party cell secretaries, must become the mainstay in making the cells families closely knitted in bonds of human feelings and, in doing this, will

have to suffer from mental pains alone for others and work harder than anybody else.

Just as mothers always concern themselves with the life and growth of their children and guide them along the right path, Party cell secretaries should patiently educate and lead Party members with warm affection and devotion. By doing so, they can train them into fighters boundlessly faithful to the Party and the revolution and into genuine revolutionary comrades-in-arms who share the same ideas and feelings.

Only then can they turn Party cells under their charge into collectives closely knitted in bonds of human feelings and into vanguard organizations which share sweets and bitters and creditably carry out their revolutionary tasks, overcoming hardships.

They should efficiently lead the work of their cells in implementing the strategic tasks advanced by the Party congress.

When they rouse up the spiritual strength of the masses of the people with powerful political work and make breakthroughs in the vanguard, miraculous innovations can be created in all work places.

Since they are always among the masses, how they speak and behave act promptly on the latter's psychology and have a great impact on them.

Party cell secretaries should become skilful political activists who can move the hearts of the people by dint of tremendous strength, that is, undivided hearts.

They should always take the lead in tackling difficult and labour-consuming work and become forerunners who uninterruptedly create new things with an innovative way of thinking and style of work.

Comrade cell secretaries,

Through this conference, you must have realized once again how heavy is the responsibility you have assumed before the Party and the revolution.

Our Party remains powerful and unflinching not because there exist its General Secretary or the Political Bureau and Secretariat of its Central Committee but because there are its cells, combat units in direct charge of

carrying out its lines and policies and grass-roots organizations, and its cell secretaries who have assumed responsibility for it.

While working together with the masses at the production sites at which the Party's intentions are being implemented, Party cell secretaries have stood in the vanguard of struggle when the Party advances, become bodyguards and a shock brigade in defending the Party at the cost of their lives when the Party undergoes trials and unyieldingly supported the Party with silent and unassuming efforts through their self-sacrificing endeavours and struggle at all times, wherever they are; but for them, the great changes our Party has achieved and the road of victory it has traversed is inconceivable.

Though they are not distinguishable from ordinary people in terms of position, special favour or reward, our Party cell secretaries who are cornerstones and reliable standard bearers and vanguard fighters in the great work unfolded by our Party are career revolutionaries with no special positions, as well as unknown heroes of unknown heroes who work with devotion for the Party without asking for any reward.

So, always feeling grateful to them, I have decided that I would request them, the hardcore of hardcore of our Party, to make greater efforts and struggle harder once more for our revolution and for our Party.

Comrade cell secretaries,

There are many obstacles and difficulties ahead of us, and so our struggle for carrying out the decisions of the Eighth Party Congress would not be all plain sailing.

Our Party never expects that there will be any fortuitous opportunity for us in paving the road for our people and in realizing their great aim and ideals to build socialism and communism.

There is nothing we could depend on or look to. We only believe in the hearts of the millions of WPK members, especially hundreds of thousands of its cell secretaries.

I made up my mind to ask the WPK organizations at all levels, including its Central Committee, and the cell secretaries of the entire Party to wage

another more difficult "Arduous March" in order to relieve our people of the difficulty, even a little, as they have followed their Party as their mother and overcome all sorts of difficulties for several decades to defend it and to provide them with the optimum material and cultural wellbeing.

Our people are invariably following our Party calling it a motherly party in times of both happiness and difficulty.

This is a valuable title bestowed only on the Workers' Party of Korea in the world and the greatest honour and glory that can neither be bought for billions of tons of gold nor be bartered for anything.

Now our Party must, at all costs, prove itself worthy of the great trust of the people who unreservedly address it as "mother."

To this end, it must become a genuine "servant" party for them.

Comrade cell secretaries,

Availing myself of this opportunity, I make a militant appeal once again to all the Party officials and cell secretaries to redouble their efforts to live up to this great name given by our people, motherly Party, which is a source of its infinite strength, symbol of its invincibility and unique title and appellation of the Workers' Party of Korea and to safeguard and add eternal brilliance to this glorious honour.

When the hundreds of thousands of cell secretaries and officials across the Party unite its members firmly under the leadership of the Party Central Committee and give full play to their loyalty, patriotism and creative wisdom, our revolution will always emerge victorious in high spirits and the ideal of communism will surely come true.

Firmly convinced that the participants and all other cell secretaries across the Party, mindful of the main idea of this conference and the tasks advanced by it, will devote themselves to strengthening and developing Party cells and thus make an active contribution to consolidating and uniting the entire Party, I declare the Sixth Conference of Cell Secretaries of the Workers' Party of Korea closed. -0-

## **6th Conference of Cell Secretaries of Workers' Party of Korea Closes WPK General Secretary Kim Jong Un Makes Important Conclusion**

Pyongyang, April 9 (KCNA) -- The 6th Conference of Cell Secretaries of the Workers' Party of Korea (WPK), which is of great significance in the implementation of the decisions of the historic 8th Congress of the WPK and the organizational and ideological strengthening of the whole Party, closed on April 8 after successfully attaining its goal amid high political enthusiasm of the participants.

The third-day sitting of the conference took place amid the participants' high-degree political consciousness and fervent revolutionary zeal to discharge their missions and duties as standard-bearers implementing the Party policies in the glorious struggle for the prosperity and development of our socialist state, true to the Party Central Committee's noble intention of regarding it as its top priority task for strengthening the whole Party to develop its cells.

**Kim Jong Un**, general secretary of the WPK, took the platform with secretaries of the WPK Central Committee to guide the third-day sitting of the conference.

All the participants in the conference raised stormy cheers in honor of **Kim Jong Un** who is enhancing the leadership and fighting efficiency of the great Kimilsungist-Kimjongilist Party in every way by constantly increasing the function and role of the basic organizations of the Party, as required by a period of new development, a period of a new leap forward, of our revolution.

Speeches were made by Kim Song Yong, Party cell secretary of the forest supervision branch office in Thongsan area under the Pyoksong County Forest Management Station, Jo Ung Mo, secretary of the Nampho City Committee of the WPK, Ho Tong Am, Party cell secretary of the second work-team of the Workshop No. 3 of the Taesong External Constructor Training Station, Ri In Chol, Party cell secretary of the third work-team of the Sunghwa Farm in Unsan County, Pak Ju Song, Party cell secretary of the technical section of the Chollima Tile Factory, Kim Chol, Party cell secretary of the production office No. 3 under the Korean April 25 Scriptwriting Company, Ri Chun Hyok, Party cell secretary of the inclined shaft work-team of the prospecting corps of the Hyesan Youth Mine, Ri Kum Chol, Party cell secretary of the second mountainous district work-team of the Sokmak Timber Felling Sub-station under the Hwaphyong Forestry Station, and Sin Kwang Ho, a Party cell secretary of the August 21 Factory.

Speakers referred to their successes and experience in their positive efforts to concentrate on the work among the people and to acquire the personality and working method befitting the primary political workers of our Party, as required by the principal mission and duty of a Party cell secretary.

The Party cell of the forest supervision branch office in Thongsan area under the Forest Management Station in Pyoksong County, an important post on the front of forest restoration, made sure that all its members take good care of forests by applying the methods proper to its specific conditions to guiding their Party life. Thus, the cell was honored with the title of loyal cell.

The participants were deeply moved by the experience gained by the Party cells of the second work-team of the Workshop No. 3 under the Taesong External Constructor Training Station and the second mountainous district work-team of the Sokmak Timber Felling Sub-station under the Hwaphyong Forestry Station which turned the work-teams into united and competent groups by devoting themselves to comrades, bearing deep in mind the General Secretary's earnest instructions that if Party cell secretaries are to fulfill their role, they should serve like a real mother of family.

The Party cell of the technical section of the Chollima Tile Factory, by intensifying the political work to enlist the workers' spiritual strength, made a tangible contribution to realizing the domestic production of finishing building materials. Thus, they proved in practice that nothing is impossible as long as there are Party members, strong in their genuine patriotic conscience and spirit of self-reliance, at the sci-tech post.

The participants were also touched by the experience gained by a Party cell of the August 21 Factory that has distinguished itself in the implementation of the Party decisions by firmly arming its members with the fighting tradition of devotedly carrying out Party policies and by waging a mass technical innovation campaign.

The participants kept in mind once again that the success or failure in the implementation of the Party's policies depends on the role of Party cells, hearing speakers saying it is possible to effect collective innovation and give full play to popular heroism when efforts are concentrated on developing the Party cell into a loyal cell, vanguard detachment for the implementation of the Party's policies and all its members pool their efforts, helping and leading one another forward.

Seriously criticized and reviewed at the conference were the mistakes revealed by some Party cells which failed to meticulously conduct the organizational work, control and guidance for strengthening Party cells, to effectively do the education in the leadership feats of the Party, and to acquire a proper revolutionary mass viewpoint.

Speakers said they learned the lessons that if Party cell secretaries fail to hold fast to the key point of the Party work and to acquire the personality

and ability suitable for primary political worker, the practical ability of the basic organizations of the Party will not meet the demands of the Party, people can not share their intentions and it is impossible to give full play to their collective wisdom and creativity.

The participants studied practical ways for turning their Party cells into united and militant groups, reviewing their work in combination with excellent experience and lessons mentioned in the speeches.

Speakers at the conference expressed their firm will to fulfill their responsibility and duty by more actively and responsibly conducting the work for strengthening Party cells, cherishing the honor of being called the hard-core members, primary political officials, of our glorious Party.

**Kim Jong Un**, general secretary of the Workers' Party of Korea, made a historic conclusion.

Very positive achievements were made in the work of strengthening the Party cells since the historic 5th Conference of Cell Chairpersons of the WPK, he said, speaking highly of the devoted efforts made by cell secretaries who have contributed to the strengthening of the revolutionary ranks and the socialist construction despite difficulties.

He set forth 10 major tasks facing the Party cells and 12 major personalities to be possessed of by cell secretaries for the present and clarified the task of Party organizations at all levels for helping the cell work.

He said that so great is the expectation of the Party Central Committee on cell secretaries, expressing the conviction that the Party cell secretaries across the Party would work heart and soul to turn their cells into healthy and wholesome ones whose members are firmly united with unusual resolution, determination and fighting spirit and thus further cement our

Party organizationally and ideologically and powerfully propel the all-people advance toward a new victory of socialist construction.

As the General Secretary finished his speech, all the participants broke into stormy cheers of "Hurrah!", extending the highest glory and warmest thanks to him who has ushered in a new heyday of strengthening Party cells by indicating the correct path toward the comprehensive development of the basic Party organizations with his profound thought and brilliant ideological wisdom.
