

**The Respected Marshal KIM JONG UN is unfolding the new history of loving people with the noble view on people:**

**A paper discussion by Comrade Innocent Mateeka, Secretary General of the Uganda - D.P.R. Korea Friendship Society**

The Leaders of D. P.R. Korea are born with special characters. That is, to selflessly offer serving an entire nation; wisdom in shaping its ideological direction; and defending interests without minding about the threats on the individual lives or family is quite sacrificial.

At a time when the Democratic People's Republic of Korea continues to interface with the external pressure through inhumane sanctions by the United Nations, the Respected Marshal Kim Jong Un, has exhibited a very unique style of leadership through love and respect of his people.

In all his exploits, Comrade Kim Jong Un, takes people as the priority. As a master of Juche, he maintains a one-on-one engagements with people, a typical talent of a true revolutionary leader. Besides the advancements in the economy and military defenses, the Supreme leader is well informed that society needs good health policies, academic excellence, cultural developments, sports and recreation across all ages in order to sustain the national achievements. This system has evolved into an all-win situation for the leaders and citizens in developing a prosperous strong sovereign state.

The future is definitely brighter with more peace and cooperation within the region.

Long live the Respected Marshal Kim Jong Un
