## CPRC Policy Department Spokesman Warns Hwang Kyo An Not to Do Reckless Act

A spokesman for the Policy Department of the Committee for the Peaceful Reunification of the Country of the DPRK (CPRC) Thursday made public a statement denouncing Hwang Kyo An, puppet acting president of south Korea, for frantically making confrontation racket losing control of himself.

Days ago, traitor Hwang convened a "state council meeting" at which he said "the north may make sixth nuclear test or other provocations on the anniversary of the People's Army" and "the north will face tougher counteraction if it makes reckless provocation". Even he cried out for the "impregnable combat-readiness".

"South Korea is making close discussion with the U.S. on the possible provocation by the north," he said, adding that "it would lay foundation for settlement of the nuclear issue of the north through diplomatic efforts with the neighboring country."

On Wednesday, frightened by the combined fire demonstration of the services of the Korean People's Army the U.S. and south Korean warmongers hastily launched "2017 combined firepower annihilating drill". Hwang appeared there and let his stooge to utter that they "displayed the might and showed strong capability for retaliatory punishment and annihilation."

The spokesman said:

Even the master U.S., much upset by the rapidly developing nuclear attack capability of the DPRK, is flustering by hurling its strategic assets. It is ridiculous for the south Korean puppet group to vociferate about "retaliatory punishment."

What Hwang is uttering reveals the uneasiness of the south Korean conservative group who have been isolated and rejected as the days go by and betrays his sinister ploy to rally the conservative forces by inciting security crisis ahead of the "presidential election".

No matter how noisily Hwang may cry out for confrontation, it is nothing but last-ditch effort of the fear-stricken one in the position of late fall. Nobody would lend an ear to him.

If the south Korean puppet group dare make provocation depending on the U.S. master, they will perish in the face of the merciless strikes by the Korean People's Army.

Hwang would be well advised to know that his foolish and reckless confrontation racket will end in a miserable death.

## S. Korean Group of Conservatives Censured for Persisting in Anti-DPRK Smear Campaign

A spokesman for the Central Committee of the Journalists Union of Korea in a statement Friday denounced the south Korean group of conservatives for groundlessly distorting the truth in the DPRK to tarnish and disgrace it, frustrated with their useless efforts for applying "effective sanctions".

The reptile media is orchestrating a farce under a scenario worked out by the conservative group, the statement said, and went on:

Over the completion of Ryomyong Street and the auspicious event of moving into new flats, the pseudo-media put it that "houses are sold in secrecy even though they are said to be supplied free", "lifts may not operate properly due to electricity problem" and "ceremony of moving into deluxe flats is for propaganda".

They are making such sophism as "human rights situation" and "life of northerners" while misrepresenting the reality of the DPRK with photos and videos they cooked up in the 1990s when it was making Arduous March, in an attempt to find fault with it.

This is a hideous politically-motivated provocation and intolerable insult that touches off towering indignation and grudge of the army and people of the DPRK.

What should not be overlooked is that the remnants of the conservatives keep making propaganda slandering and blaming the DPRK by egging the media, far from drawing a lesson from the total bankruptcy they have faced along with the impeachment of Park Geun Hye.

No matter how desperately the puppet group may try to turn white into black with all sorts of machinations and distortion, they can neither tarnish nor cover up the true picture of the DPRK, genuine

society for the people and a great garden full of loving care for the people.

We warn the south Korean conservative media once again that they will be cursed by the nation as a group of traitors that hampered the improvement of the north-south ties and national reunification and a reptile media that sold off the conscience of mediapersons for a few pennies if they persist in their smear campaign against the DPRK to chime in with the group of conservatives, away from their mission to represent justice and truth and pioneer the times.
