Kim Jong Un Gives Field Guidance to Remodeled Pyongyang Cosmetics Factory

Pyongyang, October 29 (KCNA) -- Respected Supreme Leader **Kim Jong Un**, together with Ri Sol Ju, gave field guidance to the Pyongyang Cosmetics Factory which has turned into a model and standard for the nation's cosmetics factories.

After seeing the mosaic of leader **Kim Jong Il** titled "To Provide Our People with Better Cosmetics," respected Supreme Leader **Kim Jong Un** went round the newly arranged room for the education in the revolutionary history and room dedicated to the history of the factory.

Looking carefully at each picture of **Kim Jong Il** giving field guidance to the factory in August 2003, he said that **Kim Jong Il** would be very glad to see the factory renovated finely.

All the places of the factory are associated with the love for the people by **Kim Jong Il** who made efforts to provide them with more highly civilized living conditions, **Kim Jong Un** said, calling upon the officials and employees of the factory to produce more cosmetics of good quality with world competitive power and provide the people with them, always remembering on-the-spot instructions given by **Kim Jong Il** on the day.

He went round the integrated production control room, cosmetics, soap and cosmetics vessel shops, design room, cosmetics institute, cosmetics analytical laboratory, sci-tech learning space, sample room and other

places of the factory to learn in detail about the renovation, production, research and quality of goods.

He was very pleased, saying the variety of cosmetics produced by the factory are numerous and qualitative, and that not only pattern of their vessels but packing boxes are very nice. He said with pride that he was very pleasant to think about our women and people who would like after receiving world-level cosmetics produced at the factory which has been put on a modern, scientific and industrial basis, pointing out that it has come to have the dream of the women who want to be more beautiful be realized.

Noting that the districts for production, education and workers' living of the factory have been clearly distinct, all its buildings arranged into green and energy-saving ones and everything face-lifted radically, he said he felt good as the factory has been remodeled to be proud of in the world so that it would be flawless in the distant future, too.

He put forward the important tasks facing the factory and directly gave the tasks for modernizing the second-stage production process.

Expressing the expectation and belief that the officials and employees of the factory would make continued innovation and advance in the drive to provide the people with good quality cosmetics, he had a photo session with them.

He was accompanied by An Jong Su, vice-chairman of the Central Committee of the Workers' Party of Korea, and Kim Yo Jong and Jo Yong Won, leading officials of the C.C., WPK. -0-

Spokesperson of NSGC of DPRK Slams U.S. Despicable Sanctions

Pyongyang, October 26 (KCNA) -- A spokesperson of the National Sports Guidance Committee of the Democratic People's Republic of Korea Thursday issued a press statement. It said:

Today, the frantic campaign of sanctions and pressure led by the U.S. against the DPRK is stretching its tentacles deep into the area of sports as well.

The U.S. has included various kinds of sports equipment and apparatus in the sanctions list and sees to it that not only the sales of sports equipment and apparatus to the DPRK are prohibited, but also the transit through the territory of other countries of the items donated to the DPRK by international sports organizations is blocked.

Due to the despicable and relentless pressure of the U.S., the regular leg matches which were set to be played in Pyongyang according to the agreements with some countries are being delayed for more than a year, and the decisions by relevant international sports organizations to hold 2017 World Junior Judo Championship and 2018 International Weightlifting Federation Junior World Championship in the DPRK were overturned. Australia even denied the entry of the DPRK players to take part in the AFC U-19 Championship 2018 Qualifiers.

Sports activities that promote friendship among peoples of the world and development of human civilization should not be abused in any case for sinister political purposes.

However, the heinous sanctions targeting the sports area of the DPRK, which the U.S. pursues by instigating its vassal forces, are an act that destroys modern civilization while seeking to overthrow the DPRK's ideology and system and completely shut out our people from enjoying proper cultural life.

This is clearly substantiated by the reckless remarks that Trump made recently at the UN General Assembly about "totally destroying" the DPRK.

The U.S. abuses even the lofty goals of sports for its wicked political purpose to topple the system of a sovereign state, but international sports organizations should defend the ideal of sports to promote peace and progress for humanity and development of humankind's physical culture and modern civilization.

Failure of U.S. Hostile Policy toward DPRK Is Inevitable: Rodong Sinmun

Pyongyang, October 27 (KCNA) -- Rodong Sinmun Friday carries an article titled "Inevitable is failure of hostile policy toward DPRK pursued by the U.S.-empire of evil".

The reason why the U.S. hostile policy toward the DPRK is bound to fail is because the policy is the one oblivious of the tradition of heroic Korea which registered only proud victories and of the history of the United States of America which recorded only inglorious defeat, and also because it is based on a foolish idea that the social system in the DPRK will easily collapse, the article says, and goes on:

Another reason is that the policy is a groundless one prompted by ignorance of the line and policies pursued by the Workers' Party of Korea and the DPRK that always proved victorious, and the policy is based on unreasonable misjudgment that the destiny of the DPRK can be decided by someone.

It is also because the policy is a nonsensical policy aimed at bringing down the DPRK through economic sanctions and military pressure.

The U.S., which is proud of having tightened the net of sanctions and pressure as much as it can, is threatening the DPRK that there will be no way out unless the DPRK abandons nuclear weapons and, on the other hand, it is coaxing the DPRK that it would help the DPRK live better off if the country makes other option.

The U.S. seems to regard the sanctions and military pressure as the last card of its hostile policy toward the DPRK but the DPRK is countering the last card with the revolutionary strategy of counteraction to foil it with the line of the simultaneous development of economic construction and the building of nuclear force.

The only answer we can give to the escalating threat of aggression and sanctions and pressure is the toughest counteraction.

The new line of simultaneous development of economic construction and the building of nuclear force to cope with the ever-increasing economic sanctions and nuclear threat and blackmail from the U.S. is the best option for the destiny and future of the DPRK and the most independent strategic determination.

No matter how many times the U.S. may impose sanctions and whatever a nuclear war it may provoke, the DPRK will show the aggressors and provokers the might of Juche Korea through stronger counteraction and plant the flag of final victory in the heart of the cursed land of the United States of America.

With the mental power as high as explosion the army and people of the DPRK will make oil, build atomic power plant and make whatever needed for the well-off life of the people by their own efforts despite the sanctions and pressure by the hostile forces.

If there are reasonable policy-makers considerate of the destiny of the country and rationalist capable of discerning the situation in the U.S., they should make such a bold decision as the repeal of the hard-line policy for stifling the DPRK which is the stern judgment of the past history.

The U.S. will face bitterer shame and severer destruction should it persist in its hostile policy toward the DPRK whose failure is certain.

**Park Geun Hye and Her Cult Deserve Punishment:
Spokesman for Council for Human Rights in S. Korea**

Pyongyang, October 26 (KCNA) -- Traitor Park Geun Hye of south Korea jailed after being impeached, cursed by the candlelight demonstrators, is talking about "human rights abuses", only to be censured by the public.

In this regard, a spokesman for the DPRK Measure Council for Human Rights in South Korea released a statement on Thursday, which said:

Traitor Park let MH group, a legal advisory company, to submit a "report on human rights abuses" to the UN Human Rights Highest Representative's Office and offered it to CNN as coverage. The report contains such false information told by the traitor that she is hard to sleep with the light turned on overnight in a dirty and cold cell and is suffering from a chronic disease due to the lack of medical care.

What Park uttered is just a frontal challenge and insult to the candlelight demonstrators who resolutely punished her for her thrice-cursed acts of treachery.

The UN Office, which received the "report", replied that it is not the subject to be dealt with by it, and that only became a laughing stock of the public.

However, this clearly shows how desperately the traitor and her cult move to escape punishment.

If viper-like Park and her cult are allowed to go with impunity, the south Korean people are bound to meet more terrible disasters.

Only merciless punishment should be meted out to the shameless traitor and her cult, as intended by all Koreans.

Japanese Reactionaries' Hysteric Anti-DPRK Racket Denounced

Pyongyang, October 28 (KCNA) -- A spokesman for the Korea Asia-Pacific Peace Committee issued a statement Saturday over the fact that the Abe group of Japan kicked up a hysteric anti-DPRK racket, noisily trumpeting about the "story of nuclear threat from the north" and "solution to the abduction of Japanese" during the election of members of House of Representatives.

It is a trite trick used by the sinister and crafty Japanese reactionaries to kick up anti-DPRK smear campaign in order to mislead the public opinion and maintain their power whenever they are thrown into serious ruling crisis due to political inability and all kinds of corruptions and irregularities, the statement said, and went on:

The recent farce of the election of members of the House of Representatives is also a product of the sinister plan of the Japanese reactionaries to tide over the political crisis caused by the corruption scandal of Abe and his family members, ensure the retrogressive revision of constitution opposed by the public at home and abroad and realize at any cost the militarist ambition.

The situation proves that the Abe group is the most wicked and sordid men who stoop to any infamy to achieve their political aim as they deceived the public by turning the whole Japanese archipelago into a theatre of the farce against the north.

It is a well-known fact that Abe and his group are using the "story about nuclear threat from the north" and "issue of abduction of Japanese" as excuses in order to push forward the constitutional revision which his predecessors failed to do, and then turn Japan into a "country which can participate in war" and realize the old dream of the "Greater East Asia Co-prosperity Sphere".

Abe and his group should know that they are playing a dangerous gamble by putting the prospect of their island country and the destiny of their people on stake.

The Japanese reactionaries should clearly understand that the whole Japanese islands can bury into the bottom of the sea if they go reckless by acting a stooge in the U.S. racket for escalating confrontation with the DPRK and in its war moves while chiming in with old lunatic Trump's crazy remarks.
