## **Art Performance Given for Nuclear Scientists and Technicians in Presence of Kim Jong Un**

There took place an art performance at the People's Theatre in congratulation of nuclear scientists and technicians who brought the great auspicious event of the national history, extra-large event through perfect success in the H-bomb test.

Respected Supreme Leader **Kim Jong Un** together with Ri Sol Ju appeared in the auditorium.

He warmly waved back to the enthusiastically cheering performers and audience.

Following him senior officials and meritorious nuclear scientists and technicians in the field of defence science took auditorium.

Among the audience were contributors to the successful test of H-bomb for ICBM, officials and meritorious persons of the atomic energy field.

The performers presented the marvelous stage congratulating the nuclear scientists and technicians.

The performance began with the National Anthem. Put on the stage were female chorus and male chorus "Glory to General Kim Jong Un", orchestra and male chorus "The Glorious Motherland" and other colorful numbers.

The performers highly praised the undying feats of Kim Jong Un who has regarded it as the most important state affairs to accomplish the great cause of President Kim Il Sung and leader Kim Jong Il for building the nuclear force and firmly guaranteed the victorious advance and eternal future of the cause of the Juche revolution while stubbornly passing through untrodden snow in the nuclear weaponization inch by inch.

The moment when the bright image of Kim Jong Un was screened on the background and his thunderous voices resounded, the hall echoed with enthusiastic applause with excitement.

Orchestra "At a Go", female chorus and male chorus "Let's Keep the Revolutionary Faith to the Death" and female chorus "Glory of Our Life" reflecting the spiritual world of the scientists mesmerized the audience.

The performance ended with orchestra and male chorus "We Will Go along Road of Loyalty".

At the end of the performance **Kim Jong Un** congratulated the successful performance, warmly waving back to the performers and audience.

### **Nuclear Scientists and Technicians Feted in Presence of Kim Jong Un**

The Central Committee and the Central Military Commission of the Workers' Party of Korea gave a grand banquet in congratulation of the nuclear scientists and technicians who brought the great auspicious event of the national history, extra-large event through the perfect success in the test of H-bomb.

Respected Supreme Leader **Kim Jong Un** was present at the banquet.

Present there on invitation were the contributors to the successful ICBM-ready H-bomb test.

**Kim Jong Un** appeared at the banquet hall of the Mokran House and reviewed a guard of honor of the Ground, Naval and Air and Anti-Air Forces of the Korean People's Army and the Worker-Peasant Red Guards together with those contributors.

Ri Man Gon, vice-chairman of the C.C., WPK, made a congratulatory speech.

Upon the authorization of Kim Jong Un, commander-in-chief of the nuclear force of the Republic, the speaker warmly congratulated the brave heroes who made a great contribution to attaining the final goal of completing the state nuclear force set forth at the Seventh Congress of the Party by achieving the perfect success in the test of H-bomb.

He said that the nuclear death-defying corps members who plunged into the nuclear battle site and carried out the Party's order at any cost by unsparingly dedicating their youth, lives and family happiness without wanting any honor or praise are, indeed, the real patriots and

unassuming persons of distinguished service to be respected by the whole country.

One hardly knows the detailed struggle and merits of the nuclear developers, but our Party carefully considers their blood, sweat and heroic exploits deep in the ground and most highly praises them, the speaker said, and went on:

There are not a few people engaged in the national defence in the world, but only our nuclear developers lead a worthy life with the greatest glory and happiness under the particular love and care of the leader.

Our H-bomb with super explosive power is certainly the H-bomb of **Kim Jong Un** produced by his ardent love for the country and the people and the thermonuclear bomb of the Workers' Party of Korea.

Our Party is designing the bright tomorrow of a socialist power in firm reliance on the defence scientists boundlessly faithful to the country and revolution, the speaker said, stressing the need for the nuclear developers to fully equip themselves with the spirit of defending the Party Central Committee unto death, more dynamically conduct the campaign of the final stage for completing the state nuclear force and thus fill the arsenal of the Supreme Command with the world strongest nuclear warheads capable of totally contain the enemy.

At the banquet **Kim Jong Un** made significant remarks.

He highly praised the nuclear developers for most proudly and realistically carrying out the sector tasks set forth at the Seventh Congress of the Workers' Party of Korea, and gave thanks once again to them on behalf of the Party and the state.

He said earnestly that how glad leader **Kim Jong Il** must be when he knew the news of today's victory as he hewed out the road of building the nuclear force of the DPRK and led the work to victory. The recent test of the H-bomb is the great victory won by the Korean people at the cost of their blood while tightening their belts in the arduous period, he stressed.

He called upon all the fields and units to follow the fighting spirit and trait of the nuclear combatants who are taking the lead in the drive for carrying out the decisions of the Seventh Congress of the Party.

He put forward the tasks for the scientists and technicians in the field of defence science to conduct scientific researches for bolstering up the nuclear deterrence of self-defence in the drive to attain the final goal of completing the state nuclear force, true to the Party's

line of simultaneously pushing forward economic construction and the building of nuclear force.

He said that the final victory of the Juche revolution is certain as there are firm self-supporting economic foundation provided by the great leaders, the large contingent of talented scientists, army and people having the revolutionary spirit of Paektu and their fighting tradition of self-reliance.

He called upon the reliable nuclear combatants of our Party to win greater victory with redoubled efforts, not slackening the spirit displayed by them in bringing the great auspicious event of the national history, extra-large event through perfect success of H-bomb test.

The banquet proceeded in an atmosphere overflowing with the high revolutionary enthusiasm of the participants to firmly defend the Party and the revolution with the strongest nuclear bombs in the world by successfully concluding the research and development campaign of the final stage for completing the state nuclear force, upholding with loyalty the leadership of **Kim Jong Un**.

Present at the banquet were Hwang Pyong So, Pak Pong Ju, Choe Ryong Hae and other senior officials of the Party, state and army.

### **Kim Jong Un Has Photo Session with Contributors to Successful ICBM-Ready H-bomb Test**

Respected Supreme Leader **Kim Jong Un** had a photo session with the contributors to the successful ICBM-ready H-bomb test at the Kumsusan Palace of the Sun.

When **Kim Jong Un** arrived at the venue of the photo session, all the participants enthusiastically welcomed him, extending the highest glory and warmest thanks to him.

He, with a broad smile on his face, waved back to the cheering participants in token of his warm militant salute.

He highly praised once again the reliable combatants in the nuclear field of the party for dealing a merciless sledge-hammer blow to the U.S. imperialists and their vassal forces pouncing on from all directions to stamp out the sovereignty and rights to existence and development of the DPRK and demonstrating over the world the

dignity of Juche Korea and the strong spirit of its heroic people by producing a super-powerful Juche-based thermonuclear weapon.

Expressing the belief that the soldiers in the field of defence science would as ever register fresh miracles and innovations in the struggle for realizing the Workers' Party of Korea's plan for building a strategic nuclear force as they have devoted themselves to the drive to help the country join the ranks of the world's advanced nuclear powers, he had a photo taken with them.

Participating in the photo session were also Ri Man Gon and Hong Sung Mu, senior officials of the Central Committee of the WPK.
