## **DPRK Foreign Minister's Statement Rebukes U.S. State Secretary's Anti-DPRK Malarkey**

Pyongyang, August 23 (KCNA) -- Foreign Minister of the Democratic People's Republic of Korea Ri Yong Ho made public the following statement Friday:

U.S. State Secretary Pompeo, when interviewed by a U.S. newspaper Wednesday, said if north Korea does not set out to denuclearize itself, the U.S. will maintain the strongest sanctions in history to make it confirm that the denuclearization is the right way.

Just as a saying goes "A crow never becomes whiter for often washing", he is the diehard toxin of the U.S. diplomacy.

On April 24 he cited what he called a "lane change" in an interview with the U.S. media only to be snubbed.

Nothing decent can be expected from Pompeo, a man subject to strong censure from many countries for adopting the most wicked methods of the Central Intelligence Agency as diplomatic means in every part of the world. But what arouses concerns is a string of senseless remarks made by the man heading the U.S. negotiation team at a time when the DPRK-U.S. dialogue is high on the agenda.

There is a proverb saying "Sow the wind and reap the whirlwind". Now that he made rhetoric about the DPRK without elementary obligation as a human being, losing his face as the diplomatic boss of a country, I can not but respond to it in kind.

Is he really the man who begged for denuclearization and pledged the establishment of new DPRK-U.S. relations when he was received by the chairman of the State Affairs Commission of the DPRK during his several visits to Pyongyang?

He who has no shame has no conscience. He is truly impudent enough to utter such thoughtless words which only leave us disappointed and skeptical as to whether we can solve any problem with such a guy.

The whole world knows that the U.S. is the chieftain which spawned the nuclear issue on the Korean peninsula and which makes its solution difficult.

Furthermore, what the U.S. has done since the adoption of the June 12 DPRK-U.S. joint statement was holding war exercises against the DPRK nonstop in and around the Korean peninsula and shipping strategic assets to it only to make the issue further complicated.

Now he again resorts to the hackneyed sanctions rhetoric, misleading the truth. He must be a trouble-maker bereft of sensible cogitative power and rational judgment as he only casts dark shadow over the prospect of the DPRK-U.S. negotiations.

All things to which Pompeo thrusts himself into go wrong and end up in failure though they showed signs of positive developments. He sure seems to be more interested in realizing his future "political ambition" rather than the current foreign policy of the U.S.

We have already given ample explanation enough to be understood by the U.S. side and we have also given it enough time out of maximum patience.

If the U.S. still dreams a pipe dream of gaining everything through sanctions, we are left with two options, either to leave it enjoying the dream to its heart's content or to wake it up from the dream.

We are ready for both dialogue and stand-off.

The U.S. is sadly mistaken if it still thinks of standing in confrontation with the DPRK with sanctions, not dropping its confrontational stand.

Then, we will remain as the biggest "threat" to the U.S. for long and long and will make it understand for sure what it has to do for the denuclearization. -0-

# **Spokesperson for DPRK Foreign Ministry Denounces Japan for National Discrimination**

Pyongyang, August 23 (KCNA) -- A spokesperson of the Ministry of Foreign Affairs of the Democratic People's Republic of Korea made public a press statement on Friday in denunciation of the unfair move of national discrimination now being taken by the Japanese government against the Korean children resident in Japan.

The statement said that it is an extremely unequal and heinous move of national discrimination to exclude from the free-of-charge system the children of the Korean residents in Japan who discharge their consumption tax payment obligation exactly the way the Japanese people do.

It went on:

This unfair discrimination by the Japanese reactionaries is a fascist act unprecedented in history, designed to throw all the Korean residents in Japan into the vortex of national chauvinism and obliterate by all means the nationality within the community of Korean residents in Japan.

This reality explicitly attests to the hypocrisy of the previous remarks occasionally made by the Japanese authorities that they will not be discriminatory but friendly towards the Korean residents in Japan.

Abe regime is especially subjecting the General Association of Korean Residents in Japan (Chongryon) and the Korean residents in Japan to the political pressure and unfair discrimination in a more cunning and vicious manner, though clamoring for "dialogue without conditions."

We could never tolerate the attempts to suppress and obliterate with hostility the Chongryon, a legitimate overseas organization of the citizens of our dignified Republic and the Korean residents in Japan, members of our nation, as these attempts constitute the undisguised hostile acts against the DPRK.

The Ministry of Foreign Affairs of the Democratic People's Republic of Korea will never remain indifferent to the reckless moves of the Japanese government and will take all necessary measures to defend the dignity, rights and interests of our citizens. -0-

## **National Reunification Institute Lays Bare True Colors of S. Korean Conservatives as Pro-Japanese Elements**

Pyongyang, August 22 (KCNA) -- The National Reunification Institute Thursday made public an indictment exposing to the world the sordid nature of treachery to the country and nation of the group of the south Korean conservatives and their notorious crimes.

The indictment cited facts to prove that the conservatives, pro-Japanese stooges and traitors, have not been abolished in south Korea, but they have earned an ill fame.

After the liberation of Korea on August 15, 1945, traitor Syngman Rhee was pointed out as class A stooge who would carry out the U.S. policy of new colony on the Korean peninsula.

As soon as he came to south Korea, he helped the pro-Japanese elements, who were on the verge of being liquidated after being sternly judged by the nation, find a way-out.

He faked up the "Liberal Party", the ancestor of the "Liberal Korea Party", with pro-Japanese elements who lived in wealth and honor by licking the Japanese imperialists' boots and committed indelible treacherous crimes before the country and the nation.

The key officeholders and hardcore members of the "Liberal Party" were vicious pro-Japanese elements who worked as city assembly members, public prosecutors, judges, police chiefs and county headmen during the period of occupation of Korea by the Japanese imperialists.

The coteries of Syngman Rhee did not bother such a traitorous act of inveigling the remnants of the Imperial Japanese Army into the Korean war which they provoked together with the U.S. in the 1950s.

Traitor Park Chung-Hee concluded the treacherous and shackling "south Korea-Japan agreement" after holding power and perpetrated the treacherous acts of covering up the Japanese imperialists' hideous crimes against the Korean nation and selling off the dignity and interests of the nation for a petty amount of money.

Traitor Chun Doo Hwan, who usurped power by force, following in the wake of traitor Park Chung-Hee, fully supported the Japanese reactionaries' moves to turn Japan into a military giant to earn an ill fame as a pro-Japanese traitor.

Traitor Lee Myung Bak was also a pro-Japanese traitor who positively defended the Japanese reactionaries' moves to reinvade Korea.

Park Geun Hye who succeeded her father, top class pro-Japanese lackey, became notorious for her heinous pro-Japanese country-selling crimes while in power.

The clan of ultra-right conservatives in south Korea is the group of the pirates indigenous to Japan that should be eliminated as soon as possible.

The betes noires-like ultra-right conservatives of south Korea only make reckless acts and remarks of defending the sworn enemies of Japan on a daily basis, stunning the world.

The pro-Japanese country-selling acts of the clan of conservatives including the "Liberal Korea Party" have gone to the extremes occasioned by the recent outrageous economic retaliation measure taken by the Japanese reactionaries over the judgment on the reparation to those who fell victims to labor conscription at the hands of the Japanese imperialists.

The indictment stressed that the south Korean people can never get rid of foreign forces' domination and subjugation, disgrace and humiliation as long as the "Liberal Korea Party", the group of pro-Japanese forces and traitors to the nation without an equal in the world, are allowed to go scot-free. -0-
