Supreme Leader Kim Jong Un Inspects Myohyangsan Medical Appliances Factory

Kim Jong Un, chairman of the Workers' Party of Korea, chairman of the State Affairs Commission of the Democratic People's Republic of Korea and supreme commander of the armed forces of the DPRK, inspected the Myohyangsan Medical Appliances Factory under reconstruction.

Supreme Leader of the Party, state and armed forces **Kim Jong Un** learned in detail about the reconstruction and updating of the factory, looking round the factory.

Seeing the whole of the factory, he said that the interior and exterior of the factory now befit a model factory in medical field and it was perfect both in terms of architectural beauty and technology. He said that the factory was given a complete facelift and its look changed fundamentally.

He acknowledged the factory was built into a high-tech factory capable of mass-producing different kinds of highly efficient medical appliances which are badly needed by hospitals in the country.

Putting into operation trial medical apparatuses produced by the factory, he learned in detail about their performance.

Stressing that it is important to produce lots of medical apparatuses vital for protecting and promoting the people's life but they have to be of high quality, above all, he said in earnest tone that it is precisely an issue related to the outlook on the people.

Calling for putting all the medical appliances to be produced by the factory on the level of those produced by the developed countries, he said the factory should look for data on modern medical appliances, steadily update designs and products in an innovative way to suit to the situation of hospitals in the country and the

constitution of patients and thus develop and produce quality medical appliances of high performance and practicability.

Noting that the modernization project of the factory is being done as planned by the Party in general but there are some drawbacks when seen in detail, he pointed to the insufficient quality of the construction that comes short of the needs of design and engineering.

The exterior wall tiles and seams of some buildings are not smooth enough and some areas have uneven plastering, he pointed out, criticizing the final work that has not been done in a delicate manner.

He said that he would send a unit high in construction skill soon and the factory should set right the drawbacks of the construction and complete it to be flawless and functional by the end of this year.

He was accompanied by leading officials of the Central Committee of the Workers' Party of Korea Kim Yo Jong, Jo Yong Won, Ri Jong Nam, Hong Yong Song, Hyon Song Wol, and Jang Song Ho, Chairman of Jagang Provincial Committee of the WPK Kang Pong Hun and Director of a bureau of the State Affairs Commission Ma Won Chun.
