

Supreme Leader Kim Jong Un Starts Report on Work of 7th Central Committee of WPK

Pyongyang, January 6 (KCNA) -- Kim Jong Un, chairman of the Workers' Party of Korea (WPK), chairman of the State Affairs Commission of the Democratic People's Republic of Korea (DPRK) and supreme commander of the armed forces of the DPRK, started his historic report on the work of the 7th Central Committee of the Party at the first-day sitting of the 8th Congress of the WPK.

The venue of the congress was full of great excitement of all the participants who would receive the immortal programme for dynamically advancing the socialist cause under the uplifted banner of great Kimilsungism-Kimjongilism and illuminating the broad avenue toward a fresh victory in the Korean revolution.

In his report, the Supreme Leader of our Party, state and armed forces generally reviewed the work of the 7th Central Committee of the Party which has dynamically propelled the cause of building Korean-style socialism in the direction of great progress indicated at the 7th Congress of the WPK.

He said that he is going to suggest through the report the key line of struggle and strategic and tactical policies for the epochal advance of the socialist construction and other important issues arising in accomplishing the cause of national reunification, promoting external relations and strengthening the work of the Party after strictly reviewing the work of the 7th Central Committee in the aspects of success and mistake.

The Supreme Leader reviewed the shining successes achieved by our Party and people in the period under review.

He also analyzed the mistakes manifested in the efforts for implementing the 5-year strategy for national economic development and their subjective and objective factors.

Underlining the need to start the work for further developing the overall economy of the country under a new five-year plan, the Supreme Leader analyzed the present states of the key industrial sectors including metal, chemical, electricity, coal, machine and mining industries and set forth the tasks for future development.
